

Jock Reynolds 2019 AFL Rookie Priced Watchlist

Welcome to the Jock Reynolds 2019 AFL Rookie Priced Watchlist

You can use this spreadsheet to see what each rookie priced player scored, how much time they spent on ground and what their price might rise (or fall) to if they score the same in the real stuff

The average on a full game, as well as projected price rises are only an estimate based on pre-season numbers

Dual position players are only listed once in their first listed position. Eg MID/FWD will be found in MIDS

Down the bottom there are separate worksheets for each position
